
Dawn Of War Text Too Small

ENGLISH

Millennium Dawn – Description

✓ In order for the game to be difficult and realistic, there are events to enter the **European Union** and countries (there is a chance to not enter) (There is an event to leave the **UK EU**)

✓ There are **events of important events from 2000 to 2021 (with options)** for example (crime in Ukraine, collapse of yugoslavia, azerbaijan war and ...)

✓ there is a **guarantee system**, for example, big countries make guarantees with secret events (US Israel and Taiwan always guarantee)

✓ There are no unnecessary and news model events, only events that will affect the game (for example, there are only 15 events but important events in 20 years in Turkey) (option, not the only way (AI is going the more realistic way))

✓ there are all **civil wars** from year 2000 to 2021 (**some with options**)

✓ You have **changed ideology and you will have a chance to start civil war (in 30 countries)**

✓ **130 leader pictures and 34 event pictures** (the pictures don't mix with any leader pictures from the second world war, but they can be mixed in scenarios after 1950 (in some small countries))

✓ countries can get op very quickly (to make it more difficult)

! Advice : no matter how much you want to play at the game speed, just an Info. It takes **2000 turns** until 2018 at 100 speed, and **1000 turns** until 2018 at 200 speed. At 50 speed, there should be **4000 turns**, aggression I recommend you to play at 10 or 20, **if the EU plays offensive, everyone will defeat**

! I didn't do too many events in the scenario like some scenarios because sometimes I see that the man has put so many events that every round of events comes in front of him, the game becomes unplayable. ! DM me if there is a mistake in any event ! I'm sorry if my words above are also wrong, I'm a foreigner, I hope you like the script ♥
